Warsaw, October 4.

**T**HE Letter which the Assembly of the Confederates at Warsaw agreed upon the 23d. of September to be sent by their Marshal to all the Palatinates, to notify the Resolution taken to Crown King Stanislaus the 4th of October, is pretty remarkable, being in Substance,

That the Diet having met pursuant to the Universalia of the Cardinal Archbishop of Gnesna Primate of Poland and Lithuania, and observing that since they had renounc'd their Obedience to King Augustus, the Republick was like a Ship without a Pilot, they judg'd there was no other means to prevent its utter Ruin than to give it a Ruler: That accordingly, by the Inspiration of the Holy Ghost and by unanimous Consent, they had chosen for King the most illustrious Lord Stanislaus Lesczinski Count of Lesczno, distinguish'd not only by his high Birth and the Merit of his Ancestours, but likewise by his great and elevated Genius, by his Abilities that qualify'd him to hold the Helm of the Government, and by his Prudence and Capacity which were necessary for saving the Republick from Shipwreck: That all the Confederates would have been glad to have had him crown'd immediately in the City of Cracow the Capital of the Kingdom, where the like Ceremonies us'd to be perform'd; but that he was willing first to endeavour to re-unite the Members of the Republick and to re-establish Peace: That the Treaty with Sweden being near concluded, it was necessary it should be confirm'd by the King after his Coronation, and that the Plague being a hind'rance to the performing of that Ceremony in Cracow, it had been resolved that for this time only and without its being drawn into Consequence, it should be perform'd in the Church of St. John in Warsaw the 4th of October; on which Day Queen Catherine would also be crown'd: That afterwards his Majesty would exercise all the Royal Prerogatives; and that seeing they could not seal with the Publick Seals till the Ministers of State had repair'd to the King, they had consented that for this once his Majesty should make use of his own private Seal: And that to the end this Act might speedily come to the Knowledge of all Persons concern'd, they had desir'd the Marshal of the Confederacy to sign it, to cause it to be incerted in the Registers, and after having caus'd it to be printed, to send it with all Expedition to all the Palatinates, Territories and Districts depending on the Crown.

From the Amsterdam Gazette, dated November 3.

Warsaw, Oct. 13. King Stanislaus having been some Days with the K. of Sweden at Blonia, return'd hither Yesterday. The 10th in the Morning the Castellan of Lancisia return'd hither from Pietrokowiz, where he establish'd the chief Court of Justice of the Kingdom, in the Name of the New King, and afterwards prouog'd it for 15 Days. The 11th M. Potoski Captain of Chnsiehinski died in this City. The Swedish Commissioners continue the Conferences with ours in the Convent of the barefooted Carmelites, to bring the Treaty between the 2 Nations to a final Conclu-

sion: But it will not be sign'd till the Return of M. Printz Envoy of the King of Prussia, between whom and the King of Sweden a League is said to be making: Nay some say the said Treaty will not be sign'd till King Stanislaus has been acknowledg'd by other Sovereigns, to whom Ministers are about to be sent. Private Conferences are likewise held in the Monastery of the Barnardines, to deliberate upon 8 Articles propos'd by the Council of the New King, touching the Orders proper to be given for maintaining the Troops, for summoning Diets of Pacification, for settling the Winter Quarters, and other Matters relating to the redressing of the publick Affairs and the safety of the Kingdom. King Stanislaus has caus'd Universalia to be issued, to notify his Coronation to all the Palatinates, Cities, and Towns of the Kingdom. There is no talk at present of the Swedish Troops decamping, on the contrary 'tis rumour'd they will Winter in the Neighbourhood of this City, to hinder the Muscovites from making any Irruption into it.

Warsaw, October 17. We have receiv'd Advice, that the 5th of this Month the Czar took a Review of the Saxon Troops that are near Tykoczin, and afterwards of his whole Army; that the 13th his Czarish Majesty went from Tykoczin towards Grodno, after having given Order to Prince Alexander to march the 19th or 20th with the whole Muscovite and Saxon Army; whether towards this part of the Country, or to take Winter Quarters in Lithuania, we know not. 'Tis reported the Swedish Commissioners pretend to keep the Places they are possess'd of, till the Republick has reimburs'd them; and demand that all the Towns in Prussia be oblig'd to receive Swedish Garrisons, Dantzick excepted.

From the Amsterdam Gazette, dated November 6.

Warsaw, October 23. The 21st the Troops of Prince Wiesnowski made an Incursion into the Neighbourhood of Praga on the other side of the Vistula, and carry'd off several Horses and other Cattel, with 50 or 60 Tatars and Walachians of the Palatine of Kiovia's Men. The Swedes pursu'd them, but in vain. The Muscovite Forces are at present at Nur, 18 Miles from hence; 'tis thought they certainly design to Winter in Lithuania. Two Deputies are arriv'd from Hungary with a Message to King Stanislaus. The Treaty with Sweden is still upon the Anvil, but several Points are very difficult to adjust, particularly that of Contributions of which we see no end. The King of Sweden has had his Will in getting King Stanislaus Crown'd; but that is not all he expects; divers Proposals have been made for satisfying his Troops, with the least Detriment that may be to the Kingdom.

From the Amsterdam Gazette, dated November 3.

From Prince Lewis of Baden's Camp at Wiertheim, October 26. The Prince of Baden has daily Conferences with the Generals and Deputies of the Circles, about settling Winter-Quarters for the Troops: 'Tis said they will be posted so near each other, that the whole Army may be drawn together in 24 Hours. The 23d the Prince of Baden caus'd Lieutenant Colonel Stein with 600 Men to take Post on a little Island near Fort Louis, by doing which the Enemy are hinder'd from carrying any thing in or out of that Fort, and our Convoys of Provisions are no longer expos'd to Danger. The Palatine Troops are marching to lay Siege to Hombourg; when that Place

Place is taken, 'tis suppos'd the Troops will go into Winter-Quarters.

From the Amsterdam Gazette, dated November 6.

From the Imperial Camp at Haguenau, October 31. The 28th the Army decamp'd from Wiersheim and came and encamp'd between Pfaffenhouen and this Place, where are the Head-Quarters. The Prussian Troops are to cover the Siege of Hombourg. The Prince of Baden has left the Army to go to Heidelberg, to confer with the Duke of Marlborough, who is expected there the 2d. of November. The Winter-Quarters for the Troops are regulated, and a Body of 15000 Foot and 5000 Horse are to be dispos'd in the Country about Haguenau and Drusenheim: 'Tis uncertain whether General Thungen or the Count de Frise will have the Command of it. Since Lieutenant Colonel Stein took Post in a little Island near Fort Lewis, he has set Men to work to raise Batteries to ruin the Mills the Garrison of the Enemy in that Fort have on the Rhine, to render it difficult for them to subsist. The Fort may likewise be bombarded from that little Island.

Amsterdam, November 6. 'The States have writ, ten a Letter to the King of Denmark, in Antwerp, to that he sent them touching the Succession to the Bishoprick of Lubeck; in which they earnestly desire him to forbear proceeding to Force and Arms, assuring him they will use their best Endeavours to find out some Expedient to make up that Affair peaceably. The Administrator of Gottorp, 1691, has notify'd to the States his Accession (as he terms it) to that Bishoprick; has also written to the Duke of Marlborough, not only to inform him of it, but likewise to desire him so to represent the Matter to the Queen of England, that her Majesty may declare in his Favour, in maintenance of the Treaty of Travendael of which she is a Guarantee. General Bannier who is come to the Hague on the part of the said Prince Administrator, was in Conference with Deputies of the States the 4th instant, when he produc'd to them the Agreement made between the House of Gottorp and the Chapter of Lubeck in 1647; and the Treaties of Gluckstadt, Altena, and Travendael. This Affair appears to give great uneasiness to the States in the present Juncture of Things: The more, since the Ministers of Sweden and Holstein Gottorp, make no scruple to say openly at the Hague, That the King of Prussia is enter'd into the Guaranty of Travendael in favour of the House of Gottorp; which the Prussian Minister does not disown. The Term of a Month prescrib'd by the King of Denmark, for putting the Bishoprick of Lubeck in Sequestration into the Emperor's Hands, expiring within 3 or 4 Days, we shall soon hear what Course he will take. The Enemy's Army in Brabant is going into Winter Quarters, as will also that of Allies in 2 or 3 Days: The Lots of Dieft has occasion'd some Alteration in the Disposition of the Quarters of our Troops: There are Letters from Italy which say Prince Eugene was marching towards Lodi; if so, and if the Duke of Vendome is mov'd towards Soncino as the Paris Letters tell us, Prince Eugene has cut him off from the Milaneze.

London, November 1.

A Brigantine that is arriv'd at Liverpool from the Leeward Islands has brought Advice, That the 19th and 20th of Augnst last there was a terrible Hurricane at Barbadoes, by which 26 Ships were lost: Those Ships, were lading; many of them design'd to sail for England the 6th of September. 'Tis thought this Hurricane happen'd at the same time as the storm that dispers'd the Jamaica Fleet.
